

Accusharp intends to grow with 25% annually

Mr. Ilyas Shaikh, M.D. explains Accusharp's business growth and its work culture. He says, started in 1999, an activity of regrinding of used tools for customers, on a second-hand tool & Cutter grinder, Accusharp today has grown having a modern CNC set up, On 15,000 Sq. ft. Floor space, & 130 employees working in. Accusharp presently is engaged in design, manufacture & supply a wide range of standard and special cutting tools

in HSS and Tungsten Carbide. Those are - Drills, End-mills, Reamers, Step Drills, Form Tools, Cutters, etc. Of course, the regrinding and recoating continues to be as a part of service support.

On the occasion of IMTEX this year we are introducing our New Product i.e. Gun Drill for Deep Hole Drilling. with a range from dia. 3 to dia. 32 mm. One Gun-Drill of Dia. 32 and Length of 1 meter was displayed at the IMTEX stall, which became a point of attraction for a number of customers and visitors.

Our modern set up consists of a large number of CNC machines WIDMA, ANCA, STRAUSAK, ROLLOMATIC, etc. of the latest technology. All the business processes are system oriented and supported by professionally competent people. Employees' competence upgrading is a continuous process for us.

Our customers are in various Industry Sectors – Like: Engineering, Automobile, Textile, Machine-Tools, Energy Sector, etc.

Therefore, we can say, **"We are for**

those, who are in Metal Cutting!"

Our business objective is to assist customers for their Metal Cutting Processes providing them "Total Solution" for their productivity improvement, and to help them to reduced their tooling cost.

Accusharp Tools "Cut Fast & Cut Cost."

Assuring -

- Right Quality,
 - Shortest Lead Time,
 - Cost Effective,
 - On-Time Delivery, and
 - Innovative Approach,
- We would like to be **"Productivity Partner"** for our customers.

Our Logistics Network is all over India, close to customers' doors.

Industrial safety and environmental care has top priority for us & we committed for:

- Prevention of pollution in Land, Water, Air.
