'An Indian Company with **Global Business Culture'!**

aving long experience over 17 years, Accusharp Cutting Tools Pvt. Ltd; has become today a leading company in the activities of design, manufacture, and supply of special cutting tools in Tungsten Carbide and H.S.S. With the strength of product quality and service reliability, the company has grown with 120+ employees, on a setup of 15,000 sq. ft.; and has established its prominent presence in various industry sectors like Automobile, Engineering, Machine Tools, Agro., Aerospace, Textile, Energy, etc.

Mr. Arvind Khadke, Corporate Consultant, conducted half a day Training Conference on 'Tungsten Carbide Tools Technology and Tool Applications'; wherein he shared his long experience in this field. There was an interesting interactive questionsanswers session to understand the details of the subject.

Accusharp is recognised today, as an Indian company with global business culture. The company stands as the first preferred choice for special cutting tools for a number of local and MNCs.

Satisfied customers, from various industry sectors, often visit Accusharp works to witness its proficient operational activities, management systems, work culture and technological developments.

Recently, a team of twenty technical professionals, from some MNCs, made one day plant visit to Accusharp. Purpose of the visit was to see the modern CNC machine setup, to learn cutting tools manufacturing processes and technology behind.

Mr. Khadke also explained some of the business strengths of Accusharp

- Products with customer expected
- Processes with modern equipment of high efficiency,
- People with competence and passion,
- Logistics services with reliability,

Tech. Director, Mr. Girish Kulkarni and Customer Desk Manager, Mr. Ajit Kamble conducted a plant tour for the visitors. Visitors were impressed to witness the implementation of 5-'S' concept - i.e. cleanliness, and safety care in the plant. Visitors had free interaction with the Accusharp operators on the CNC machines to understand the company's manufacturing process from the product quality point of view. This useful interaction strengthened the customer's confidence about Accusharp product quality and reliability; so that to consider Accusharp as productivity partner for them.

• Participation in CSR.

H.R. Head, Ms. Rashmi, presented documentaries to the visitors on Accusharp's activity processes, and on the company's participation in the IMTEX-2017.

Ms. Dhanshree, from Customer Care Desk, made all the logistics arrangements for the plant visit and the training conference. Sales Manger, Mr. Shashikant Lokhande coordinated the entire Event.

Response from the visitors was encouraging; and they requested Accusharp to extend such useful plant visits and training sessions for their other colleagues from their respective companies.
